THIS FRIDAY AND SATURDAY ONLY!

SONY 4K ULTRA HD TV

Once you've seen the world in 4K Ultra High Definition, there's no looking back. With Sony 4K Ultra HD, breathtaking detail is depicted with pinpoint accuracy for the most natural images. You also get the widest colour spectrum we've ever offered and 65 watts of powerful sound from built-in speakers. It's quite simply the most immersive, highest resolution TV experience possible.

TRILUMINOS COLOR

Colours you've never seen on a screen.

This new generation TV panel makes colours purer, more distinct and with a heightened sense of depth. It's all down to intelligent backlight technology, a Triluminos display reproduces more tones and textures than standard LED backlighting – for colours you've never seen before on a screen.

Sony XBR 4K Ultra HD LED TV

- 4K Ultra HD (3840 x 2160 resolution)
- 4K X-Reality™ PRO Picture Engine
- **TRILUMINOS display**
- Dynamic Edge LED backlight

65" **$4999.99** WAS $5999.99
XBR65X900A

Upscale to 4K.

Suddenly, everything looks better. Now even old movies and smartphone video clips are enhanced with stunning results. The new 4K X-Reality™ PRO chip enhances HD (or lower resolution) images by analyzing and refining images with beautiful natural detail and astounding color. The latest Reality Creation database and Super Resolution processing breathes new life into everything you see with phenomenal 4K (3840 x 2160) resolution.

Four times clearer than HD.

See more on TV than ever before with over 8 million individual pixels (3840 x 2160) compared to about 2 million (1920 x 1080) on your current HDTV. Advanced picture processing also ensures that every single pixel displays images with superb brightness and authentic detail. It's the highest resolution picture Sony has ever produced on a TV.

Well connected.

Stream beautiful video from favorite sites like Netflix® and YouTube® with built-in Wi-Fi®. And connect to even more movies, music and apps by wirelessly mirroring what's on your compatible Android smartphone. Put simply, if it's on your phone, it can be on your TV.

Sound innovation. (X900 Model only)

These aren't the TV speakers you're used to. Unique to Sony TVs, Magnetic Fluid Speaker technology allows a thinner, more efficient loudspeaker that offers faithful reproduction of high-fidelity sound. The front-facing speaker system directs sound right at you with 65 watts of power. S-Force® Front Surround 3D simulates 5.1 surround sound, with an enlarged sweet spot that everyone in the room can enjoy.
